TANDHAN POLYPLAST INITIATED SUCCESSFUL VAN CAMPAIGN IN RAJASTHAN & UP BRICK FIELDS

Van Campaign started across the major brick manufacturing regions of Rajasthan and Uttar Pradesh (UP). This initiative was focused on direct interaction with brick field proprietors and management. Our mobile unit were strategically deployed to key production sites to conduct live product demonstration of our robust Ecopaulin and Ecoraksha tarpaulins. The core objective was to effectively showcase how our durable, waterproof, cross-laminated products provide superior protection for raw bricks and valuable field equipment against inclement weather conditions.

TRAINING SESSION ON IPS & SOLAR SOLUTIONS CONDUCTED FOR LOCAL TECHNICIANS - DHAKA POWER TRADERS

Under the supervision of Allah'r Dan Battery House, a comprehensive training program was held in the Chittagong region for dealer and local technicians.

The session, led by Service Head Samir Poddar, Md. Parves Howlader, and Masud Rana, focused on advanced technical skills for IPS and solar systems and in-depth product knowledge. This initiative is designed to immediately boost service efficiency and support the growing regional demand for reliable power solutions.

COX'S BAZAR CAMPAIGN: BUILDING TRUST AT THE GROUND LEVEL

Tandhan DPT executed a highly successful two-day engagement campaign in the Cox's Bazar region, aimed at strengthening customer trust and product visibility.

Day 1 visits to multiple garages and workshops, where the team directly introduced the features and benefits of products like Xcell Power and Yong Power to drivers and owners.

Day 2 featured complimentary service camps across key city areas, providing essential technical support such as checking battery health and offering maintenance advice.

This comprehensive campaign was highly appreciated by the community, successfully boosting product awareness and reinforcing customer satisfaction across the region.
